Vascular and Interventional Radiology

Procedures Offered:

Hypertensive Therapies
- Transjugular intrahepatic portosystemic shunt (TIPS) for refractory ascites, recurrent hydrothorax, or recurrent variceal bleeding
- Balloon-occlusion retrograde transvenous obliteration (BRTO) of varices
- Transhepatic variceal embolization
- Transjugular liver biopsy +/- portal venous pressure measurements

Hepatobiliary
- Percutaneous transhepatic cholangiogram (PTC) with catheter placement for biliary decompression or bile-duct injury
- Biliary stenting
- Biliary stone retrieval
- Endobiliary biopsies
- Cholecystostomy tube placement

Peripheral Vascular Disease
- Angioplasty and stenting
- Atherectomy
- Recannulization of chronic large vessel arterial occlusions
- Catheter directed thrombolysis for acute limb ischemia

Venous Disease
- Acute DVT thrombolysis
- IVC filter placement
- IVC filter retrieval
- Venous angioplasty and stenting
- Recannulization of symptomatic chronic venous occlusions

Women’s Health
- Uterine fibroid embolization
- Pelvic Congestion Syndrome
- Fallopian tube recanalization
- Post-partum hemorrhage embolization

Genitourinary
- Percutaneous nephrostomy (PCN) with catheter placement
- Nephroureteral stenting
- Complex stone access for nephrolithotomy
- Utereroplasty
- Renal Cyst Sclerosis
- Percutaneous Renal Mass embolization
- Angiomyolipoma endovascular Ethanol Ablation
- Scrotal varicocele embolization Pulmonary
- CT-guided lung biopsies
- Bronchial artery embolization
- Pulmonary arterial thrombolysis for massive/submassive acute PE
- Pulmonary AVM embolization
- Tunneled pleural catheter insertion for recurrent effusions
- Pigtail pleural drains

Dialysis Care
- Tunneled dialysis catheter placement and access
- Fistula and graft maintenance
- Venoplasty, stenting, and balloon maturation
- Thrombectomy of clotted dialysis access
- Vein mapping

Embolization
- Gastrointestinal bleeding
- Refractory epistaxis
- Pre-operative tumor embolization
- Trauma embolization
- Peripheral AVM treatment

Neuro
- Cerebral and carotid angiograms
- Carotid stenting
- Epidural blood patch
- Intra-arterial thrombectomy for large acute strokes
- Intra-arterial vasospasm treatment for subarachnoid hemorrhage

General IR
- Ultrasound guided paracentesis and thoracentesis
- Fluoroscopic guided lumbar puncture
- Image-guided needle biopsies
- Gastrostomy and gastrojejunalostomy (GJ) tubes
- Endovascular foreign body retrievals
- PICC lines
